

CITY OF MINNEOLA, FL
CONCURRENCY MANAGEMENT APPLICATION CHECKLIST
 (Type or write legibly to be accepted)

This Checklist is based on the relevant provisions of Chapter 90 - 5 of the Minneola, FL Code of Ordinances. The Code is available online at www.municode.com. The requirements described below are minimums that may be adjusted in the pre-application conference.

State law requires the City to determine that the available capacity of the necessary public facilities - roads, potable water, sanitary sewer, parks & recreation, stormwater management and solid waste - are available to serve the proposed project at the time its off-site impacts actually occur. This determination is done by comparing the impacts of the proposed project with the Level-Of-Service (LOS) standards established in the City's Comprehensive Plan and the currently available capacities in these systems.

There are three types of concurrency certificates (letters) Conceptual, Preliminary and Final. They are described as follows:

Conceptual	Optional at the zoning stage <u>Valid only for letter date</u>	Valuable as an early assessment of available public facility capacities which will be available at the time of the project's final development order application
Preliminary	Optional at site plan or preliminary S/D plat stage <u>Valid only for letter date</u>	Valuable as an early assessment of available public facility capacities which will be available at the time of the project's final development order application
Final	Prior to issuing a Final Development Order Valid for specified time	IF public facilities capacities are found to be available at adopted levels of service at the time of final dvlpt approval, a certificate of concurrency will be issued and vice-versa
